Mr. Weisbergh;

I am a college student at Middle Tennessee State University. I have a double major in Aerospace and History and a minor in Economics. I have also been studying the Kennedy assasination for about six years. I attended a college lecture series on the assasination and have read every book I can get on the subject. I have read everything from the Warren Commission report to the most absurd theories put forth in some books.

The reason I am writing you is because over the last few years I have become a serious student of the Kennedy assasination. I hope to start off my carear being a history teacher specializing in events from WW II to the present. I would also like to write a book someday pertaining to the assasination. I believe the American intelligence - Anti-Castro Cuban - mafia connection led to President Kennedy's death. From some of the interviews I have seen of you, I think you are one of the knowlegable persons on the forces that are responsible for President Kennedy's death. I also know that any serious student of the assasination has read and studied your books. I am hoping that you will send me any information on how to obtain the books you have written. I want to buy all of your Whitewash Volumes, Oswald in New Orleans, and Post-Mortem.

The last address I have obtained was from 1988. If ~~the~~ your address to write too has changed please send me it, and a list of the books I can purchase along with the price. I would greatly appreciate this information along with anything else you could send me.

The following is my home address -

Jon Glass
205 Lake Circle Dr.
Tullahoma, TN. 37388

Sincerely,
Jon Glass
